

EXECUTIVE PROFILE

Purpose-driven leader with 13+ years across data, analytics, research, digital transformation, organisational change and stakeholder engagement, with deep experience in Ireland's youth mental-health and nonprofit environment. At SpunOut, effectively serve as the organisation's one-person data function, with responsibility spanning data analysis, engineering, business intelligence, research, reporting and governance, partnering directly with Senior Leadership and the Board on strategic decisions, service performance, and multi-year funding proposals. Founder and CEO of Loggdin, an independent Dublin digital studio focused on reporting, digital products, AI strategy and automation. Known for understanding the problem behind a request, defining practical evidence-led solutions, and establishing sustainable ways of working.

CORE COMPETENCIES

Youth Mental Health Authority	Board Governance & Strategy	Digital Innovation & Delivery
Direct knowledge of frontline support operations (50k chats/yr), crisis listening, trauma-informed evaluation, and published national health evidence.	Architected commended 3-layer Board reporting; committee member across Finance, Planning, and Technology; expert in GDPR and AI ethics.	Founder & CEO track record setting strategy, product roadmaps, and delivery models; led multi-year enterprise platform transformations and team upskilling.

LEADERSHIP EXPERIENCE

One-Person Data Function Lead (Designation: Data Analyst)

SpunOut (Ireland's Youth Information & Support Platform) | Dublin, Ireland

December 2022 – Present

Organisation-wide responsibility for data and insight, effectively serving as the one-person data function across analysis, engineering, BI, research, reporting, and governance across all services (including Text About It, supporting ~50,000 conversations/year).

- Board Governance & Executive Reporting:** Designed a three-layer Board reporting model covering quarterly narrative and key KPIs, detailed monthly trends with 3-year comparisons, and supporting drilldowns. Praised repeatedly by the Board and SLT for eliminating reporting friction and answering emerging requests near-immediately.
- National Youth Mental Health Research:** Led the data and analytical workstream behind SpunOut's landmark *250,000 Conversations* 5-year report, synthesizing 7.9M messages into published evidence on youth demand patterns, demographics, and safeguarding flags. Contributed key analytical findings to SpunOut's published *Loneliness Report*.
- Service Redesign & Trauma-Informed ACE Review (+14% Response Lift):** Performed thematic analysis of 1-to-3 rated conversations, identifying confusing survey wording and prompting critical clinical discussions around whether sensitive Adverse Childhood Experiences (ACE) questions were appropriate immediately post-support. Delivered complete survey redesign and schema refactor, increasing response rates from **8.4% to 9.6%** in year one while preserving longitudinal comparability.
- Digital & Platform Modernization:** Led two major BI platform transitions (Periscope → Sisense, and Sisense → Sigma) and secured enterprise Databricks lakehouse access; refactored raw tables into governed datasets and automated Sigma-to-Slack operational workflows.
- Ethical Governance & AI Framework:** Embedded organisation-wide data governance covering GDPR compliance, data quality, access controls, and retention. Formulated a practical, organisation-wide AI Governance Framework.
- Stakeholder Leadership & Funding:** Partner with Senior Leadership on funding proposals, white papers, and organizational policies; manage technology vendors and contractors, chair internal working groups, and deliver data-literacy mentoring.

FOUNDER EXPERIENCE

Founder and CEO

July 2026 – Present

Loggdin (Independent Digital Studio) | Dublin, Ireland

Founded in July 2026 as an independent Dublin studio focused on reporting, digital products, AI strategy, and automation.

- **Strategic Direction & Service Delivery:** Set business direction, qualification of opportunities, product roadmaps, and delivery architecture; define products and services from concept through production.
- **Digital Products & Practical AI:** Building digital products and practical AI automation solutions with an open-build model, including a public-facing driving-test route resource, automated Notion architectures, and executive reporting suites.

EMPLOYMENT HISTORY (2013 – 2021)

Professional Experience Across Technology & Operations

2013 – 2021

HCL Technologies | Emirates Airlines (Dubai) | Amdocs | Accenture

- **BI Consultant – HCL Technologies (Dec 2020 – Sep 2021):** Delivered business intelligence and data solutions, data modeling, SQL, Tableau, data transformation, and technical documentation. Designed 4 automated IVR workflows following call-data analysis, reducing contact center load by 10%.
- **Marketing Specialist, Data – Emirates Airlines (Jul 2019 – Jul 2020, Dubai, UAE):** Analyzed passenger, weather, and operational datasets to build Tableau dashboards supporting resource and organizational planning; conducted customer sentiment research using NLP techniques, translating large datasets into actionable findings.
- **Senior Business Analyst – Amdocs (Feb 2017 – Jun 2019):** Managed and mentored a team of analysts while collaborating with stakeholders across functions; led predictive cost forecasting, data extraction, preparation, and executive visualization suites.
- **Business Analyst – Accenture (May 2016 – Feb 2017):** Developed Tableau dashboards for a Commercial Banking CFO group; supported digital transformation initiative analyzing ServiceNow data that reduced ticket volumes by 15%.
- **Data Analyst – HCL Technologies (Oct 2013 – May 2016):** Built recurring reporting solutions using Power BI and SQL, bridging technical teams with operational leadership to translate reporting needs into practical solutions.

GOVERNANCE, COMMUNITY & RESEARCH

Irish Vipassana Trust — Appointed Committee Member

August 2024 – October 2025 | Dublin, Ireland

Formally appointed to support establishing a permanent property in Ireland; contributed strategic governance across Finance, Planning, and Technology Committees.

Seven Cups — Volunteer Listener & Community Safety

~4 Years Active Service | 2,397 Support Chats | 228 People Helped

Completed structured peer-support training; provided frontline crisis listening, progressing into community safety oversight detecting and remediating inappropriate behavior.

Civic Volunteering (OLIO & St Patrick's Festival)

2022 – 2026 | Dublin

Food Waste Hero redistributing surplus food locally; supported operational delivery of Dublin's St Patrick's Day Parade (2026).

250,000 Conversations: 5-Year Milestone Report

Lead Data & Analysis Workstream | SpunOut

Published landmark report covering 250k conversations and 7.9M messages across usage, demographics, safeguarding, mental health topics, and volunteer contributions.

Loneliness: What Ireland's Young People Are Telling Us

Published Evidence Contributor | SpunOut

Turned frontline support data into published evidence examining youth loneliness patterns, co-occurring concerns, and peak help-seeking times.

Organisation-Wide AI Governance Framework

Author & Strategic Lead | Policy

Engineered an institutional framework balancing responsible AI adoption, youth data privacy, and ethical implementation.
