INSTITUTIONAL LEADERSHIP

Principal Data & Insights Lead (Designation: Data Analyst)

December 2022 – Present

SpunOut (Ireland's National Youth Information & Support Platform) | Dublin, Ireland

- Lead all organizational data, business intelligence, and reporting for SpunOut services, including Text About It, which handles approximately 50,000 conversations each year.
- **Strategic Partnership Proposals (Google and YouTube \$20M Initiative):** Co-developed and presented 3 strategic proposals to Google and YouTube executive leadership alongside SpunOut Senior Leadership, targeted at YouTube's \$20M global digital literacy and wellbeing initiative announced in Dublin.
 - **Board Reporting & Strategic Oversight:** Created a structured three layer Board reporting system that provides quarterly executive summaries, key performance trends, and detailed supporting data. Praised by the Board and Senior Leadership for eliminating delays and answering strategic questions quickly.
 - **National Research Publications:** Led the data and analytical workstream for SpunOut's landmark 250,000 Conversations 5 year report, analyzing 7.9 million messages to establish published evidence on youth demand patterns, demographics, and safeguarding topics. Contributed analytical findings to SpunOut's published Loneliness Report.
 - **Trauma Informed Service Review (+14% Survey Response Lift):** Evaluated user feedback on support interactions to identify clinical sensitivities in survey questions about Adverse Childhood Experiences. Redesigned the survey structure and data schema, increasing response rates from 8.4% to 9.6% in the first year while maintaining historical data consistency.
 - **Ethical Governance & AI Framework:** Drafted and introduced an organization wide AI Governance Framework, while establishing operational standards for GDPR compliance, access controls, data quality, and secure data retention.
 - **Platform Modernization:** Managed complete system migrations from Periscope to Sisense and subsequently to Sigma, secured Databricks lakehouse integration, and automated operational notifications through Slack to keep teams informed in real time.
 - **Cross Functional Leadership:** Collaborate with Senior Leadership on funding proposals, research papers, and operational policies, manage technology contractors, chair internal working groups, and mentor staff on data literacy.

INDEPENDENT VENTURE LEADERSHIP

Founder and Chief Executive Officer

July 2026 – Present

Loggdin (Independent Digital Studio) | Dublin, Ireland

CRO registered independent digital studio based in Dublin, focused on separate commercial initiatives in digital products, reporting solutions, and automation.

- **Executive Leadership & Strategy:** Direct business strategy, commercial planning, product roadmaps, and client project delivery from initial concept through release.
- **Product Development & Automation:** Build and launch independent digital tools, including a public driving test route resource, automated workspace systems, and custom executive reporting suites.

ENTERPRISE EXPERIENCE ACROSS TECHNOLOGY & OPERATIONS (2013 TO 2021)

- **BI Consultant | HCL Technologies (Dec 2020 – Sep 2021 | India):** Delivered enterprise business intelligence solutions, analyzed stakeholder requirements, and wrote technical documentation for reporting schemas and system models.
Operational Efficiency: Created 4 automated interactive voice response workflows based on call center data analysis, reducing overall call volume by 10%.
- **Marketing Specialist, Data | Emirates Airlines (Jul 2019 – Jul 2020 | Dubai, UAE):** Built executive Tableau dashboards combining passenger and operational records, saving over 100 planning hours for leadership teams.
Sentiment Analysis: Used Word2Vec natural language processing algorithms on customer communications to track sentiment trends, helping improve response workflows and customer service plans.
- **Senior Business Analyst | Amdocs (Feb 2017 – Jun 2019 | India):** Supervised and mentored a team of 3 analysts, coordinated delivery across business units, and established structured reporting methods. Led an independent cost forecasting project covering data preparation, statistical forecasting, and visualization for senior decision makers.
- **Business Analyst | Accenture (May 2016 – Feb 2017 | India):** Built Tableau reporting suites for a Commercial Banking leadership group, analyzing customer onboarding trends to help guide account strategies. Assisted an operational improvement project by analyzing ServiceNow support records, helping achieve a 15% reduction in ticket volumes.
- **Data Analyst | HCL Technologies (Oct 2013 – May 2016 | India):** Produced and maintained approximately 30 recurring business reports each week using Power BI and SQL, acted as a liaison between technical and management teams, and received an R&R; Award in 2015.

GOVERNANCE, COMMUNITY SERVICE & RESEARCH

- Irish Vipassana Trust | Appointed Committee Member**
August 2024 to October 2025 | Dublin, Ireland
Formally appointed to support the establishment of a permanent center in Ireland, contributing governance support across finance, planning, and technology committees.
- Seven Cups | Volunteer Listener & Safety Support**
Approximately 4 Years | 2,397 Support Chats | 228 People Helped
Completed structured peer listener training to provide one to one support chats, progressing to safety duties by identifying and reporting inappropriate platform behavior.
- Community Volunteering (OLIO & St Patrick's Festival)**
2022 to 2026 | Dublin
Collected surplus food locally to prevent waste with OLIO, and supported on the ground operations during the 2026 Dublin St Patrick's Day Parade.

- 250,000 Conversations: 5 Year Impact Milestone Report**
Lead Data & Analysis Workstream | SpunOut
Published landmark national report covering 250k conversations and 7.9 million messages across user trends, demographics, safeguarding themes, and volunteer engagement.
- Loneliness: What Ireland's Young People Are Telling Us**
Published Evidence Contributor | SpunOut
Analyzed support service data to produce published findings on youth loneliness patterns, related concerns, and peak hours of need.
- Organization Wide AI Governance Framework**
Author & Strategic Lead | Policy
Designed an organizational policy structure for responsible AI adoption, data privacy, and ethical compliance.
